

## **CHARITY WORKERS EXTEND GLORIOUS SUPPORT FOR MOTEC IN GHANA.**

At times Charity work can be cumbersome especially considering arrangements to pay working visits to difficult terrains in Africa. It is especially so when some of the volunteers are foreign to the host country and flights arrive in the city late, when restaurants are shut or shutting and night travelling with foreigners creates a picture of a trip reminiscent of the dark Africa of colonial amplitude.

Motec has been very blessed with support from individuals of amazing heart and character. At the beginning of Motec Campaign and to date, some members of the Ghana International Spouses Association have been very helpful. To mention a few- Mrs Heward Mills, Mrs Adelita Bediako, Dita Owusu Ansah, Mrs Estelle Appiah and others have been extremely helpful. Mrs Florence Benson of Pokuasi Estate has also been marvellously supportive. Collaborations are emerging between Motec and Medlab through Mrs Rosemary Keating. All these ladies are on high profile jobs but have been kind to put in the extra time and money to support Motec. Fund raising has been one of the other activities that our representative in Accra, 'Estelle' has been working hard on.

Recently another lady of extraordinary talent and kindness has stepped in to support Motec. She is Liz Rees of Accra. This lady has taken on Motec in a big way and is hosting most volunteers, looking after accommodation and food as well as chauffeur services in Accra this October. Elizabeth Rees is a Personal Assistant by profession and worked with the airline industry for 20 years. Presently, Liz is Events Planner and also involved in rentals and catering services for all occasions dedicates a significant part of her life to charity work.

There is a surge of gentlemen also supporting Motec. Mr Lal Gokals of Gokals Limited –Optical and Pharmaceutical Services is part sponsoring the paramedic workshop planned for Koforidua on 23<sup>rd</sup> October. Mr Safori of Johnson and Johnson Accra also has been supporting our public education programmes in many ways.

Next year in October, God providing, a fund raising football game between Motec Life UK and our supporters in Ghana may be organised in Accra or elsewhere to raise funds for our projects and indirectly draw public attention to our objectives. May I reassure you that the paramedics will be on standby during the game. Our sincere gratitude to all these wonderful people.

Seen in the picture are Mrs Ofori-Atta and Ms Liz Rees in Accra September 2008.

**BRAVO!**
