I would like to take this opportunity to thank all members for the help and cooperation which enabled me to carry on the responsibilities as Electoral and Returning Officer. The cooperation I had even when I had to contact some of you at unusual times of the day to verify your details was very commendable.

Mr David Lewis (webmaster) requires special mention because my work would have been several times harder had it not been for his cooperation and foresight and ingenuity. Thank you David and thank you all

Dr Kofi Amu-Darko
