

MOTEC FIRST QUARTERLY NEWSLETTER

JANUARY 2021

Outcome of Motec Zoom General Meetings- 2ND October 2020/10th January 2021
Fellow Volunteers!

Trying times don't seem to be running out but I am confident that the COVID -19
Pandemic will come under control by early summer.

We advertised the opportunity for members to participate in a zoom general
meeting in October last year and again last week Sunday. Participation has been
good. We have been looking for the way forward in the current pandemic as a
charity given safety issues priority.

On both occasions we were agreed to put on hold group travel to Ghana for
some time pending review in April. The only time we will carefully respond
positively to requests from our health institution collaborators is when we can
justify one or two-member team to travel to Ghana to intervene safely through
education and limited digital interactive workshops.

We have also been aware that we completed our Motec elections a year ago. We
were patiently waiting for our face-to-face AGM in April 2020 to accept and
inaugurate our new executives but it wasn't to be. Both interactive discussions
met our constitutional requirements and all participants supported the idea that
the new executives should now be launched into office. We were also agreed to
invite Dr. Ash Baghart onto a new role as a Non-Executive Trustee. Details of the
Trustees will be published by our dedicated webmaster soon.

We take this opportunity to welcome our new Vice President and new Trustee
into office and also extend our gratitude to all who served in various Trustee
positions in the previous term. We will continue to need your support.

Other issues we agreed to do are to publish some of our projects and recent
visits on the website to keep our members aware that we remain ready to act
when it is safe to do so. Besides, project leaders are encouraged to maintain
communications with their counterparts in Ghana.

Till then, its best wishes.
Stay safe and healthy.
