

Dear volunteer / friend,

The news is out that our dear **Zena Bullmore (MBE)** has passed away on the 2nd of April. Sad that our Zena is no more with us. She was a stalwart guardian of good causes and Motec enjoyed her inspirational views about good health and how to defend social welfare issues for the benefit of humanity. She was a fighter who inspired me very dearly standing up for her local community to keep health services 'locally' and at the 'doorsteps' of all people. She drove her ideas with vigour and enthusiasm using education as her weapon.

Apart from glorifying peaceful approach to difficulties, she brought communities together and supported efforts to help underprivileged people all over the world by supporting charities like ours. She made financial contribution to Motec's educational projects without ceremony. I called her the 'ZENA THE WARRIOR PRINCESS' in 2009 and she never failed to live up to that expectation in her 'prime'.

Zena suffered from Alzheimer's disease the past few years which made it extremely impossible for her to reach out to people.

We mourn the loss of a lady of substance and at the same time celebrate her accomplished life. Motec will make a contribution to her nominated charity Alzheimer's Society. She will be laid to rest on Monday 13th of April.

At noon on 13th April, I humbly request members to observe a minute silence in her memory. Motec will be represented by an executive member at the funeral.

Members will be given the opportunity to express their condolences at our meeting at the post graduate library tomorrow Sunday 12th April.

May she rest in eternal peace!

P. Ofori-Atta
